### WORK EXPERIENCE

- Wordpress Blogger

Freelance

Olongapo City, Zambales

April 2021 - August 2021

  - Launched and managed a personal blog using WordPress Premium, achieving 120,000 views and 88,000 visitors in its first year through content creation alone.
  - Authored and scheduled 63 posts, utilizing SEO strategies to drive organic traffic and improve search rankings.
  - Customized themes and managed plugins to optimize user experience and maximize WordPress Premium features
  - Demonstrated long-term impact, with the blog maintaining significant traffic (233,000 views in 2022 and 61,000 views in 2023) despite no new posts since 2021.
- Admin Aide

Internship

Local Civil Registry

June 2022 - August 2022

  - Processed civil documents such as birth, marriage, and death certificates, ensuring accuracy and legal compliance.
  - Provided customer support by addressing inquiries and assisting individuals with document requests.
  - Conducted accurate data entry and maintained organized records for the civil registry.
  - Coordinated with local agencies to update and verify civil registry information efficiently.

Aspiring web developer specializing in front-end development and UI/UX design, passionate about creating intuitive, responsive web interfaces. Proficient in building designs from scratch and bringing them to life with technologies like HTML, CSS, React.js, and JavaScript. Seeking an internship to enhance my skills, contribute to innovative projects, and expand my expertise while embracing new challenges in a collaborative environment.

### Projects

- Front-End Developer | Web UI/UX Designer

MindTale(<https://www.mindtale.site/>)

Thesis Application

August 2023 - Present

  - Led the front-end development of the MindTale web application, utilizing HTML, CSS, and React.js to create a seamless and interactive user experience for enhancing reading comprehension skills.
  - Designed intuitive and user-friendly interfaces using Figma, ensuring a visually appealing and engaging experience for elementary students interacting with gamified educational content.
  - Collaborated effectively on GitHub, streamlining version control and team workflows, and ensuring smooth integration of front-end components with the overall application structure.
  - Optimized performance and responsiveness of the application across various devices, ensuring accessibility and consistent user experiences for students and educators alike.
- Front-End Developer | Web UI/UX Designer

Valorant

Personal Project

November 2024 - Present

  - Designed and developed the front-end of the website using React.js, HTML, and CSS, creating an interactive and engaging platform for Valorant enthusiasts.
  - Crafted intuitive user interfaces with Figma, ensuring the design was visually appealing and aligned with Valorant's dynamic aesthetics.
  - Focused on responsive design, ensuring optimal performance across various devices for an accessible and consistent user experience.
